RE: Lease 1 Project s/027/051, Millard
County, Utah

Dear Mr. Wilson:

We have reviewed a description of the mining operations as submitted to the Division of Oil Gas and Mining. We received a copy of the notice from the Bureau on February 25, 1994.

The plan we received describes mining ore containing Perlite. No processing will be done on site, at least initially.

It does not appear that the operation as described will have any water quality impacts. No permit is required for the stated activities. However, you must advise us for review of any water quality impacts if your activities generate any waste water that would be discharged to the ground or surface waters of the State.

If we can be of further assistance, please contact Mr. Lyle W. Stott of my staff.

Sincerely,

Kiran L. Bhayani, P.E., D.EE., Manager
Design Evaluation Section
